REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a transcutaneous portal arrangement having in combination all the structural elements and functional relationships and further comprising a clamping structure which clamps the end of the tubular element to the catheter within the portal body. In general, it is the specific connection of the tubular element "sandwiching" the catheter body against the portal body with a clamping structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
